Re: Emergency Phone Number for Public Health

To contact Snohomish Health District for emergency situations outside of our regular business hours use our emergency number:

**Public Health Emergency Phone Number: (425) 339-5295**

This number is for public health emergencies only, and will reach the Health District staff who is on duty for receiving such calls. This number is not to be released to anyone not on this distribution list.

This number should be used only when situations arise that require public health consultation or intervention on an emergency basis, such as possible bioterrorism, foodborne outbreaks, large sewer spills, communicable disease events needing prophylaxis of contacts, or other unusual events where a significant threat to public health may be present and immediate action is needed. The Public Health Emergency Number is not for use in non-emergent situations. For non-emergent situations, the numbers below should be used during regular business hours.

Water and Sewage	(425) 339-5250
Toxic waste/solid waste	(425) 339-5250
Foodborne outbreaks	(425) 339-5225 and/or (425) 339-5250
Communicable Disease Control	(425) 339-5225
